

600W Single Output with PFC Function

Features

- Universal AC input / Full range
- Built-in active PFC function, PF>0.94
- 250% peak power capability
- High efficiency up to 89%
- · Withstand 300VAC surge input for 5 seconds
- Protections: Short circuit / Overload / Over voltage / Over temperature
- · Built-in cooling fan ON-OFF control
- Built-in DC OK signal
- · Built-in remote sense function
- 5 years warranty

Applications

- Industrial automation machinery
- Industrial control system
- · Mechanical and electrical equipment
- · Diagnostic or biological facilities
- Test or measurement systems
- Telecommunication equipment

Description

HRP-600N is a 600W single output type AC/DC power supply. This series operates for 85~264VAC input voltage and offers the models with the DC output mostly demanded from the industry. Each model is cooled by the built-in fan with fan ON-OFF control, working for the temperature up to 70°C. Moreover, HRP-600N provides 250% short-duration peak power for motor applications and electromechanical loads requiring much higher power during start-up.

Model Encoding HRP - 600N - 24 Output voltage(12/24/36/48V) Rated wattage Series name

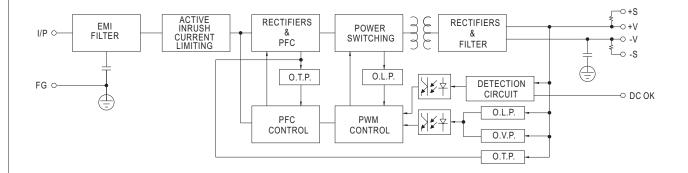

SPECIFICATION

■ Derating Curve

■ Output Derating VS Input Voltage

■ Function Manual

1.Remote Sense

The remote sensing compensates voltage drop on the load wiring up to 0.5V.

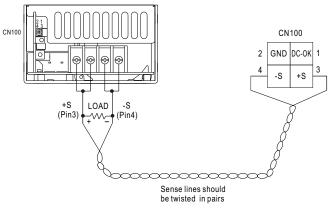

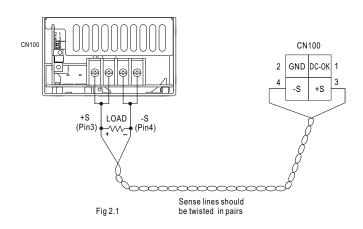

Fig 1.1

2.DC-OK Signal

DC-OK signal is a TTL level signal. High when PSU turns on.

Between DC-OK(pin1) and GND(pin2)	Output Status
3.3 ~ 5.6V	ON
0 ~ 1V	OFF

3.Peak Power

$$P_{av} = \frac{P_{pk} \times t + P_{npk} \times (T-t)}{T} \le P_{rated}$$

$$Duty \frac{t}{T} \times 100\% \le 35\%$$

t ≤ 5 sec

Pav: Average output power (W)

 P_{pk} : Peak output power (W)

 P_{npk} : Non-peak output power(W)

Prated: Rated output power(W)

t : Peak power width(sec)

T: Period(sec)

For example (12V model):

Vin = 100V Duty_max = 25%

 P_{av} = Prated = 636W

P_{pk}= 1200W

t ≤ 5 sec

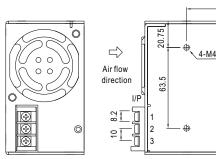

$$P_{av} = \frac{P_{pk} X t + P_{npk} X (T-t)}{T} = \frac{1200 x5 + P_{npk} (20-5)}{20} \le 636W$$

 $P_{npk} \le 448W$
